SOCIALISM!

outline of a Sermon Delivered by Kev. D. W. Fisher, DD., of Madison, Ind., in the Second Preshyterias Church of this City, Sunday, August 18, 1878 Trac - While it remained was it not thine own but after it was sold, was it not in thine own pow-

This passage shows that the Bible gives countenance to the movement which is variously known as Socialism, Communam and Internationalism. It recognizes he permanent right of private property, it which directly or indirectly this mod-

in its various phases, as one of the most portentous signs of the times. It is not a sudden freak of humanity, which has quickly come, and which may be expectickly to disappear. On the con-t has been slowly gathering its lorces for two thousand years at least, and waiting for an opportunity to assert (teelf. Its fundamental principle was as unequivocally laid down in Plato's Republic as it has been by any of its modern eaders. The waters have been dammed back, but sooner or later a way must be nade for them, else they will force one or themselves and carry destruction far

and wide.

Socialism, also, although wrong in its principles and its practices, and huydral in its tendencies, has a cause to present it is like an ulcer in the body. It is an alarm bell and a-safety valve, in the onward a higher good under Providence it is an awark to do.

PUNDAMENTAL PRINCIPLE. The fundamental principle of Social-ism relates to the right of private prop-erty. In some cases this right has been latly denied. The famous answer of Proudhon to the question "What is prop-erty?" is "property is robbery." He proposed to put everything into a com-mon treasury and distribute it according sed which would practically place

listribute property according to certain THE PULPIT AND SOCIALISM. THE FULPIT AND SOCIATISM.

This is a political question. It also involves principles in political science. But it tonches morals. The issue raised, and be settled only on Christian principles and in the Christian spirit. Therefore it is a subject suitable for the pulpit. Indeed Socialism itself has in some cases sought to shelter itself under the teachings of the Bible, and on the other hand often has openly attacked Christianity. We cannot be indifferent to it, if we are true to the cause of Christ.

ue to the cause of Christ. right of private property is original one. It is not the result of a social compat. It is not the product of human law. It has its foundation in the

store of man and in the nature of society set the right to life, liberty and the pur-suit of happiness. All that society can do is to regulate the exercise if. THE LAW OF SCRIPTURF.

Scriptures treat it as an original nationable right. The moral law of enact it, but only regulates it by . Thou shalt not seal, Thou shalt wet. It assumes its existence just us it does the existence of God himself. Juder the sevitical code the land went sack to the original-owners at the end of wery fifty years; but the permanent right all dwhership was recognized, the only pe-milistriy of it was that it was vested in he family rather than the individual,— or reasons pertaining to the circumstan-er of that case.

of that case. St. Simon, Fourier and Laroux claimed Bt. Simon, Fourier and Laroux claimed that the germs of their ideas, were in the New Testament. At the first glance some fasts might seem to support this assumption, but a more careful examination will abow that this is a mistake. The disciples left, all and followed Jesus, hut they did, not abandon the right of property; for John had his own home to which he took Mary at the death of Christ. They merely left their worldy affairs and gave themselves to the ministry to which they were called. The rich young man was directed not to put his property list a common treasury, but to sell it, an act which implied the right to lift, and the sell yet of the poor. The community of goods which was Jerusalem was only partial. It arose from a temporary exigency, and so soon as that had passed it also disappeared. The text shows that even at the time whis community of goods was prescribed in the early days of the church at Jerusalem was only partial. It arose from a temporary exigency, and so soon as that had passed it also disappeared. The text shows that even at the time when this community of goods was precised the right of private property was not annulled. What renders this passeg still more, significant is the fact that it, was land which had constituted the property of Ananias. Socialism as the goppel of the profeteriat, the operatives, proposes to introduce a golden against property of the profeteriat, the operatives proposes to introduce a golden against property to introduce a golden against property to introduce a golden against the control of the profeteriat, the operatives proposes to introduce a golden against the control of the profeteriat, the operatives to control to the profeteriat the operatives to the property of the profeteriat the operatives to the profeteriat the operatives to the profeteriat the operative

of the executioner. These executions had the approbation of the most tender hearted people of the city, because of the grimes for which they were inflicted. 30. THE SEMEDY, IVAN What is the remedy for Socialism hey cannot crush ideas, and Socialism s born of ideas. Even the absolutism o

Bussia cannot extinguish it.

Others say that the remedy is education. But it is in Germany where educa tion. But it is in termany where educa-tion is well nigh universal that it most flourishes. The man who shot the Em-peror of Germany is said to be a gradu-ate of one of the Universities. The truth is that man is a moral and religi-ous as well as an intelligent being, and if we educate merely the intellect and neg-lect the higher elements of his nature we, lect the higher elements of his nature we have thrown him out of balance, and the result may be disastrous. Conscience must be enlightened and trained to good in order to insure sgainst wil. Mere secular education is no safeguard. EVILS TO DE REMOVED.

The remedy is two-fold. Socialism is formed in part of real evils. No man who calmly contemplates human society can deny that it presents wrongs enough to be rectified. The land system of Eogland, for example, is an "inverted pyramid." Through the laws of entail and primogeniture the soil is held by a few thousand persons, and the mass of the Born of despair." might be said of a east a part of the Socialism of our days, the evils which have produced it should be removed. If we play the Philiatine ismon will pull down the temple and ury himself in the ruins.

ERRORS TO BE CORRECTED.

ERRORS TO BE CORRECTED.

Socialism is also born in part of errors.
Each of its leaders has laid the foundation for it in a false system of metaphysics. All Socialists agree in the belief that
the ills under which men are suffering
here are the result of a bad organization
of society. Individualism is pronounced
to be the curse of our race, and deliverance is expected from Socialism, Communium, Internationalism. The mistake
made is in overlooking the fact that the
evils of this world spring not from external organization, but from the ainfulselss of human nature. The only adequate ramedy consequently is regenera. tess of human nature. The only adequate ramedy consequently is regenera-tion and sanctification by the power of God. Inasmich, also, as we have no right to expect that men will here become per-fect, there are ills which will continue to the end to afflict the world. Socialism drams of the unattainable. These are truths which need to be inculcated in op-position to the errors which underlie this movement.

snovement.

To a large degree this movement springs from atheim, pantheim and materialism. So far as this is true it can be remedied only by bringing back the minds of men to the great fundamental truths of the Bible. There is a living personal God. There is a providence which numbers the very hairs of our heads. There is a law according to which

And along with these truths the churc And along with these truths the church must in some way reach the masses with the gospel of Christ. Poor men, suffering men, those who are in error, all those upon whom Socialism feeds, must, be made to hear of Christ, who was himself a son of toil, who had not where to lay his head, who still sympathies with us in all our trials, and who in the consciousness of his own divisity-said, "Come unto the all yes that labor and are heavy laden

education slone, but in the removal of the erils and the correction of the errors from which Socialism originates; and above all it is in the laithfainess of the church in presenting the gorpel to the masses as the one only adequate antidote for their ills.

pecial Correspondent of the Intelligencer.

The interest awakened by the recent

discovery of deposits of auriferous black sand on the Ocean beach and in the footbills in the vicinity of the Cliff House, is increasing daily, and the scene of the excitement is now regularly visited by thousands of persons from this city re-presenting almost every class. The beach all day long from Mussel Rock, is dotted with eager prospectors. Everybody- is euthusiastic, and the almost unanimous opinion of those who have inspected the diggings is that the large quantities of the oldden black sand, which covers an area many miles, will yield a very handson profit to the workers. There is a comany styled the "Ocean Beach Mining important as well as the richest part as established. This place is a connuous bustle from daylight until sunlown. Within a semi circle formed by he surrounding hillocks and numerous chicles, several of the horses had been and staked out to rest and nnitioned and staked out to rest and rears on the barren brush, were congress ed the principal locaters and mining ex erts, who discussed the details of the erts, who discussed the details of the old field and the probabilities of a future on anza in an unimpassioned manner, while the uninitiated outsiders not versed hile the uninitiated outsiders not versed the science of mining clustered around dated upon any available or practical aggestion. The majority of the work-g men take their lunches, and noon-time when all spread out the sand banks, waggons, and buggies, to sight resembled a shipwrecked colo-y or a picnic by the sea-shore. Miners hightop boots and, red shirts, with evers rolled up, were seen stalking and other appliances requisite for work-ing fine gold. The great trouble at pres-ent is that their work is impeded by the crowd that is continually wandering

of a small boy yesterday, whom he met with three pups in a basket.

"Goin' to drown them," was the reply.
"I want a pup formy little boy to p ay with; what do you say to letting me take one of them?"

"I'll sell you one," spoke up the boy, with true American enterprice.

"I'll sell you this 'yellow one for half a dollar, the black one for 75 cents, and the spotted one is worth a dollar.

"I think my boy would like the spotted one best, but you ask 'too much lor if Xou had intended drowning all of them, but I'll give you 25 cents and save you the trouble of drowning the spotted one."

"Twenty-five cents for that spotted pup?" exclaimed the boy, "I can't stand it taxes is high; rent is high; goceries is high; oil is down and going lower—oh no; I can't take less than a dollar."

"Bat you intend to drown—"

"Take the black one at 75 cents."

"My little boy wouldn't like the black one."

"Take the valler, one at half-a dollar.

Take the yaller one at half a dollar "I don't like his color." "Well, then, you'd better tell your lit-tle boy to play with his toes," and he con-tinued on his way to the river, remarking that "no party can dead-beat his way on me these hard times."
